

>> Carbon Fibre Portholes.

Carbon fibre porthole with smoke grey methacrylate glass, expansion clutch to hold the window open in any desired position and a compact EPDM watertight sealing gasket.

Adjustable stainless steel closing handles.

Thanks to the special features of carbon fibre, the portlight weighs a third less than steel portholes, but offers greater resistance.

The porthole material does not oxidise and is quick and easy to clean.

The telescopic system makes this portlight suitable for any bulkhead thickness, allowing shipyards to optimise purchases and warehouse management.

The innovative elegant design of this porthole, combined with its excellent quality, make it a premium choice for any customer.

- >> MADE COMPLETELY IN CARBON FIBRE
- >> CAN BE PAINTED ON REQUEST
- >> THE WINDOW IS OPENED AND HELD OPEN BY MEANS OF HINGES OR EXTERNAL CLUTCH
- >> WEIGHT REDUCED BY 1/3 COMPARED TO STEEL PORTHOLES
- >> MORE RESISTANT THAN STEEL PORTHOLES
- >> NO OXIDATION ISSUES
- >> QUICK AND EASY TO CLEAN
- >> WATERTIGHTNESS 0.8 BAR
