

>> Bilge Pumps.

Sturdy bilge pump for sailboats, made of Stainless Steel with a high-resistance nylon membrane. Total reliability is guaranteed by the stringent tests. Its non-slip lever handle can be taken off the pump body to reduce overall dimensions to a minimum.

Membrane pump with vertical membrane holder Ø 150 mm

Code 259.363

It is supplied with a bracket to fix to the wall by means of four M5 TGS screws.

Delivery: 50 ÷ 60 l/min

Inner Ø of membrane holder: 27 mm

Total height without lever handle: 200 mm

Lever handle length: 380 mm
