

## >> Non-hinged Hatch.

---

Non-hinged hatch for sailboats, specifically designed to access technical rooms or lockers where sail sacks, ropes, cables and other similar accessories are stored.

It consists of a laminated window frame and window with no hinges that can easily be removed and re-installed back in place.

The stainless steel handles can be folded down to avoid protrusion, a neoprene sealing gasket guarantees watertightness.

The hatch can be walked on and for greater safety the cover can be coated with non-slip paint.

- >> TO ACCESS TECHNICAL ROOMS AND LOCKERS
- >> NO PROTRUSION
- >> NO HINGES
- >> WINDOW CAN BE COATED WITH NON-SLIP PAINT
- >> FOLD-DOWN HANDLES
