

>> “Light” Stainless Steel Portholes.

These portholes for yachts and motor boats are made in 316L Stainless Steel with a smoke grey plexiglass window, a compact EPDM waterproof sealing gasket, adjustable stainless steel closing handles and a fully automatic hinged clutch to keep the window open in any desired position.

A vast choice of standard and customised sizes is available.

The light weight, ease of use, value-for-money cost and elegance of these portlights guarantee boat and yacht owners maximum satisfaction.
